# Prepping beginner coders with the skills and confidence for a career in tech.

## What is SET.Hacks()

SET.Hacks() 2021 is a hackathon for high school students; a competition with workshops, speakers, and mentors where students compete in teams to code impactful projects in just 48 hours.

SET.Hacks() is hosted by the SET foundation, a student-run STEM non-profit with 3 year long strong track record for hosting high-school oriented STEM events.

Machine Learning | Web Development | Mobile Development

University Panels

Networking Sessions

Sponsor Booths

24/7 mentorship

Break activities

### Code the Future

4 8   H R S

Students collaborate to build projects aimed at tackling a major problem in the future.

You have great resources, let us bring it to the next generation of innovators.

## Why SET.Hacks()?

### Understanding Youth

We understand first hand, the struggle experienced by youth on their journey in tech. Building bridges between you and the next generation in tech is our area of expertise.

### Strengthening company reputation

Strengthen your reputation as a company that cares about empowering students in tech. Connect with future talent; start building relationships with young prospects.

### User retention

Get beginners hooked onto your products with our team's step-by-step walkthroughs because it's the only tool they'll know how to use.

### Content integration

SET.Hacks() has unique learning tracks prior to the hackathon that serve as a learning guide for beginner hackers. Integrate your product directly into our tracks to maximize user retention of your product and/or service.
